

Addition to the Culture Meris import guide.

=====

New server location for the Culture MERIS weekly composite data, use “FileZilla” or other tool for data retrieval!

Server:

sftp://culturemeris.esrin.esa.int/

username: cm2011

password: cm2011

navigate to the directory: /Reprocessing\_1/

select the appropriate year (e.g. 2011 or 2012)

navigate to the directory /iso

specify / select the appropriate time directory (start week – end week)

specify / select the required region of interest

Download the required H / V grid location(s) of your interest. Download the data and use the script for further processing.
